Teacher Certification	26	0
Extension Leadership & Communications	24	0
Agricultural Sciences	24	0
Electives	32-35	0
Total	136	0

It takes 136 credit hours to graduate; 45 hours must be in agriculture. You can only count each class one time.

All students must complete at least one course that requires a substantial writing component. See the list of approved courses in the schedule of courses.

IT IS STRONGLY RECOMMENDED THAT AGEE STUDENTS NOT TAKE TRANSFER (CORRESPONDENCE/DISTANCE EDUCATION) COURSES DURING THE SEMESTER THEY PLAN TO GRADUATE. If you decide to go against our recommendation, plan on completing the course a minimum of ten weeks before the end of the semester.
